Education

April 2026 – July 2026 — **Visiting Ph.D. Student.** Ludwig Maximilian University of Munich, Department of Statistics and Munich Center for Machine Learning.
Research: Climate News and Credit Default Swap Dependence: A Dual Generalized Autoregressive Score Approach. Supervisor: Prof. Thomas Nagler.

2023–Present — **Ph.D. Candidate.** Sapienza University of Rome, Department of Statistical Sciences.
Research: Essays on Covariance Matrix Estimation through Copula Functions. Supervisor: Prof. Giacomo Morelli. *Thesis has been submitted on 27 October 2026.*

2020–2023 — **M.Sc. in Quantitative Finance.** Department of Statistical Sciences, Sapienza University of Rome.
Final grade: 110/110 cum laude. Thesis: *Penalized Regression for Graphical Models and Portfolio Optimization.* Supervisor: Prof. Giacomo Morelli.

2017–2020 — **B.Sc. in Statistics for Economics, Finance and Insurance.** Department of Statistical Sciences, Sapienza University of Rome.
Final grade: 97/110. Thesis: *L'utilizzo dei derivati nella gestione del debito pubblico italiano.* Supervisor: Prof. Massimo De Felice.

Employment History

2023–2026 — **Teaching Assistant.** Data Analysis. Supervisor: Prof. Giacomo Morelli.
ARPM program for Asset Pricing and Financial Risk Management. Supervisor: Prof. Giacomo Morelli.

2022–2023 — **Risk Controller.** Enel, Rome, Italy.
Computation of a financial index measuring the company's market-perceived risk and management of an internal warranty-monitoring program.

Working Papers

1. **G. Di Luzio and G. Morelli**, "Robust Semiparametric Graphical Models with Skew-Elliptical Distributions," available on arXiv.
2. **G. Di Luzio and G. Morelli**, "Dynamic Conditional SKEPTIC," available on arXiv.
3. **G. Di Luzio, G. Morelli, and T. Nagler**, "Climate News and Credit Default Swap Dependence: A Dual Generalized Autoregressive Score Approach"
4. **G. Di Luzio, G. Morelli, and G. Vagnani**, "Dynamic Conditional SKEPTIC–MIDAS: Modeling Dependence, Portfolio Tail Risk, and Climate Transition Risk"

Conferences and Seminars

2026 — **MASES Meeting "Mathematics Applied to Society: Early Scholars", Rome.**
Presentation: "Climate News and Credit Default Swap Dependence: A Dual Generalized Autoregressive Score Approach"

2026 — **XXVII Workshop on Quantitative Finance, Bergamo.**
Presentation: "Dynamic Conditional SKEPTIC."

2025 — **XXVI Workshop on Quantitative Finance, Palermo.**
Presentation: "Robust Semiparametric Graphical Models with Skew-Elliptical Distributions."

2025 — **3rd Ph.D. Conference of the Department of Social and Economic Sciences, Rome.**
Presentation: "Dynamic Conditional SKEPTIC."

2024 **18th Conference of Statistics and Financial Econometrics, London.**
Presentation: "Robust Semiparametric Graphical Models with Skew-Elliptical Distributions."

Skills

Languages	Italian (native); English (full professional proficiency).
Programming	R, MATLAB, and Python.
Software	LaTeX and Microsoft Office.
Data Platforms	London Stock Exchange Group (formerly Refinitiv) and Bloomberg.
Communication	Academic writing, scientific presentations, public speaking, and teaching.

Certifications

2023 **Advanced Risk and Portfolio Management.** Quant Bootcamp, NYU Tandon School of Engineering.

2021 **Advanced Risk and Portfolio Management.** Financial Risk Management at Sapienza University of Rome.

2020 **Advanced Risk and Portfolio Management.** Asset Pricing at Sapienza University of Rome.

Additional Information

Interests	Travel, volleyball, strategy games, and analytical problem-solving.
